

Leadership Enrichment for  
Adolescents through  
Assessment and Development

# LEAAD Annual Report

## 2015-16

An initiative by

**Foundation for Capability Building (FCB)**

# Why LEAAD ?

In India, huge efforts have been initiated by Government agencies, NGOs and also large number of donors for education ecosystem such as:

1. Upgrading Infrastructure
2. Upgrading abilities of teachers
3. Inclusion of Technology

However, there is strong gap in beneficiaries' ability to leverage these efforts for their development. And even leadership development is an area which still remains unexplored. The founders of the "Foundation for Capability Building (FCB)" recognized this unmet need and ventured to create a training program to train this at-risk population.

Foundation for Capability Building aims to develop their leadership skills in order to enhance their learning capabilities and induce a sense of accountability in them through its flagship program LEAAD. LEAAD Program conceived, developed and provided by Naman.

This initiative also stems from the fact that our country needs to build not just SMART cities and infrastructure, but invest in developing SMART citizens too. The best way to do so is to work with adolescents, who are still living with families and are capable of influencing families and at the same time can give positive and quick response in terms of behavioral modifications. Besides, they are the future citizens of our country.
